

VRSA

Virginia Risk Sharing Association

Workers' Compensation Plus

Injured employees may face expenses not covered under the Virginia Workers' Compensation Act (VWCA). The new **Workers' Compensation Plus (WC Plus)**, available through VRSA, provides coverage for additional incurred expenses, as well as the costs of bloodborne pathogen testing.

WC Plus offers reimbursement for:

- Costs associated with the adaptation/purchase of appliances/home modifications prescribed for injured workers over the amount provided by the VWCA.
- Counseling services to immediate family members or co-workers affected by a tragic work-related incident, such as a death or catastrophic injury.
- Expenses incurred by a primary caregiver during an employee's inpatient stay.
- Personal belongings damaged as a result of a compensable claim, such as eyeglasses, jewelry, clothing, etc.
- Expenses for testing for non-compensable bloodborne pathogen exposures.

**VRSA protects and supports those that protect
and care for our communities.**

For more information on WC Plus, contact your member services representative.
