Virginia Risk Sharing Association

Training Trifecta

Sending staff away for training takes **time** and **resources**. That's why we created the **Training Trifecta!**

This program is designed to address your **top three training needs** in one eight-hour day. Choose your courses from our training course catalog and VRSA staff will develop a combination of in-class and hands-on instruction.

Members can schedule one to two Training Trifecta days, to allow for maximum staffing flexibility. Nearby members may be invited to attend.

For more information, contact your VRSA Safety Consultant.

Training Topics Include

(but are not limited to...)
